2. If a student is referred or assigned to independent study pursuant to Education Code section 48915 (expulsion) or Education Code section 48917 (suspended expulsion), instruction may be provided through independent study only if the student is offered the alternative of classroom instruction.
3. An individual with exceptional needs, as defined in Section 56026, may participate in independent study, if the pupil's individualized education program specifically provides for that participation.
4. No independent study agreement is valid for any period longer than one school year.

8. The independent study program will provide content aligned to grade-level standards substantially equivalent to in-person instruction. High school students participating in independent study shall have access to all courses offered by OCDE for graduation and approved by the University of California or the California State University as creditable under the A–G admissions criteria.

9. Student agrees to attend and participate in synchronous instruction and/or live interaction opportunities as required.

B. ASSIGNMENTS

1. **Frequency of Assignments:** Student agrees to complete assigned independent asynchronous work at least weekly unless otherwise directed by the teacher. Assignment details located in subsidiary documents for each program include lesson plans, course agreements, or syllabus
2. **Submission of Assignments:** Assignments may be submitted in-person, via e-mail, OCDE designated online platform unless otherwise directed by the teacher, US mail, or other means pre-approved by the teacher.
3. **Maximum Length of Time:** Assignments must be completed and submitted within a maximum period of one month from the date the work is assigned. (Academic grade penalties may incur.) Under specific circumstances, with prior notification, the County Superintendent or their appointee (often the supervising teacher) may allow for a longer period of time, up to the agreement's termination date.

When a student fails to make satisfactory educational progress or fails to complete four consecutive independent study assignments during the agreed assignment period, a documented evaluation process will be conducted to determine whether it is in the student's best interest to remain on independent study.
2. Satisfactory educational progress will be measured by: (1) the student's achievement and engagement in the independent study program, (2) completion of assignments, assessments, or other indicators that evidence the student is working on assignments, (3) learning concepts as determined by the supervising teacher, and (4) progress towards successful completion of the course of study as determined by the supervising teacher.
3. Satisfactory educational progress will be monitored by faculty advisors, supervising teacher, and/or course teachers. A written evaluation as to whether the student is making satisfactory educational progress will determine if the student should remain in independent study or return to a regular school program. The evaluation record will be considered a mandatory interim pupil record and must be maintained for a period of three years from the date of the evaluation.

H. ACADEMIC AND OTHER SUPPORTS:

1. Students who are not performing at grade level, or need support in other areas, such as English learners, individuals with exceptional needs in order to be consistent with an individualized education program (IEP) or Section 504 plan, pupils in foster care or experiencing homelessness, and pupils requiring mental health supports have access to multi-tiers of intervention, including targeted and differentiated instruction, individualized or small group academic support and virtual intervention programs.

I. TIERED RE-ENGAGEMENT

1. The independent study program shall implement tiered re-engagement strategies for students who fail to generate attendance for more than 10 percent of the required minimum instructional time over four continuous weeks, do not participate in more than 50 percent of scheduled synchronous instruction in a school month (as applicable by grade span), or are in violation of the written agreement. These strategies shall include proactive interventions to support student engagement and academic progress.
2. Tiered Reengagement strategies shall include, but not limited to, the following procedures: (1) verification of current contact information for each enrolled student; (2) notification to parents or guardians within one school day of recorded nonattendance or lack of participation; (3) outreach from the school to assess student needs, including referrals to health and social services as necessary; and (4) a standard for requiring a pupil-parent-educator conference to review the independent study agreement and reconsider the program's impact on the student's achievement and well-being.

Orange County Department of Education Internet Acceptable Use Policy

Internet access is now available to Orange County Department of Education Alternative, Community, and Correctional Education Schools and Services. Our goal in providing this service is to promote educational excellence in the Orange County Department of Education by facilitating resource sharing, innovation, and communication.

The Internet is an "electronic highway" connecting millions of computers all over the world and millions of individual users. Access to the Internet will enable students to explore thousands of libraries, databases, and bulletin boards while exchanging messages with users throughout the globe. In addition, the system is used to increase Orange County Department of Education communication, enhance productivity, and assist OCDE employees in upgrading their skills through greater exchange of information with their peers. The system also assists the Orange County Department of Education in sharing information with the local community, including parents, social service agencies, government agencies, and businesses.

With access to computers and people from around the world also comes the availability to material that may not be considered to be of educational value in the context of the school setting. Families should be warned that some material obtained via the Net may contain items that are illegal, defamatory, inaccurate, or potentially offensive. The Orange County Department of Education has taken precautions to restrict access to controversial information, either by accident or deliberately. However, the benefits to students from online access far outweigh the possibility that users may procure material that is not consistent with the educational goals of the Orange County Department of Education.

The purpose of this agreement is to ensure that use of Internet resources are consistent with the Orange County Department of Education's stated mission, goals, and objectives. The smooth operation of the network relies upon the proper conduct of the students and faculty who must adhere to strict guidelines. These guidelines are provided here so that you are aware of the responsibilities you are about to acquire. If an Orange County Department of Education user violates any of these provisions, his or her future access could be denied in accord with rules and regulations discussed with each user during Internet training sessions.

To gain access Internet, all students under the age of 18 must obtain parental permission and both parent and student must sign this document. The signatures at the end of this document legally bind and indicate the parties who signed have read the terms and conditions carefully and understand their significance.
